NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

It was hard to tell who was the happiest after that big 20-12 victory over Haskell last Friday night—the boys, the coaches or the fans. Everybody just seemed to go wild after the game.

Besides winning the game, what was so thrilling to us was the way the boys came back in the second half to just plain whip the Indians. When you can hold a team as good as Haskell to just nine yards rushing in the second half you are playing just some of that defense.

The boys seem to do all right, but I don't know if the fans and the coaches can take too many more goal line stands like the ones in the last two games.

One thing that made this victory so sweet was the fact that Hamlin had not beaten Haskell since 1966 and in the last 12 times these two teams have met, Hamlin has only won three games and tied one.

But now that the game is over we can not spend too much time enjoying the victory because we have to play Stamford here Friday night. And our record with Stamford is not too good either as Hamlin has won only four of the last 11 games. The last win coming in 1969.

Because Stamford has a 1-6 record it would be easy to take them too lightly, but remember the Piper's record was not too good when they played Winters.

The boys need your support again this Friday.

Next Tuesday when you go to vote (you are going to vote aren't you?) you not only will be voting on a president and several statewide offices, but you will also be voting on 14 amendments to the Texas Constitution.

Elsewhere in this edition we have a story on these amendments along with a brief outline of the arguments being presented for and against each of them by both their supporters and their opponents.

Out of the 14 amendments we feel that nine of them should be approved, four defeated and one we can take or leave. Those we favor are 1, 2, 3, 8, 9, 10, 11, 12 and 13. And we oppose 4, 5, 6 and 14. The one we can take or leave is Amendment 7.

Amendment 7 is being called The Equal Rights for Women Amendment but is an amendment to the Bill of Rights in the Texas Constitution that provides that equality under the law shall not be denied or abridged because of a person's sex, race, color, creed, or national origin.

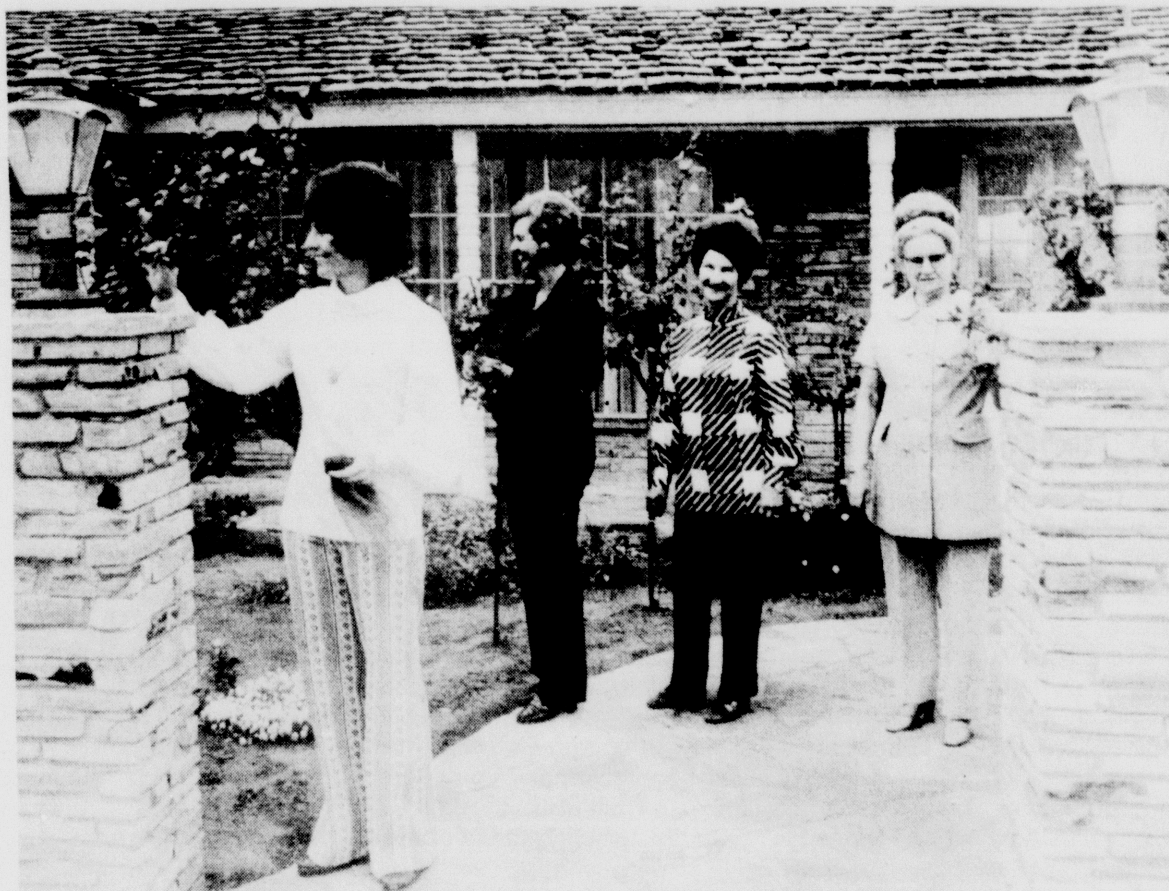

While a great many woman's organizations are campaigning hard for this amendment most who oppose do so on the grounds that it is pointless because the 14th Amendment to the United States Constitution and The Civil Rights Act have already taken care of this matter of discrimination.

We suppose that if you feel that people need even more protection from discrimination then you should vote for this amendment.

Out of 14 there is one that should be approved without question. This is number 2 and it is purely local in nature. The people of Lamar County want to do away with their hospital disjunct but they have to have the approval of the rest of the state to do so.

Four of the amendments deal with salaries and term of office. Amendment number 1 calls for an increase in the salaries for members of the House and Senate from \$4,800 to \$8,400. With the Legislature meeting as much as it does it is hard to call serving in the Senate or Legislature a part-time job. It is hard to have honest government when you don't

General Election Voting Tuesday

Polls will open at 8 a.m. and close at 7 p.m. in Jones County for the general election to be held Tuesday, Nov. 7. Hamlin voters will cast their ballots for President, state and county offices, and 14 amendments to the Texas Constitution in either the Hamlin Public School Gymnasium or the Hamlin City Hall, depending on where they live.

The West box (Precinct 30) will be voting in the Public School Gymnasium at 245 S. W. Second with Miss Lennie Greenway serving as election judge. The East box will vote at the City Hall with A. B. Carlton serving as judge. The City Hall will be closed for business on that date.

There will be no contested races on the ballot at the county or precinct level with Democratic candidates being unopposed but there will be a number of races at the state and national level.

The ballot for the general election is complex, with candidates listed for four parties and 14 amendments to the Texas Constitution, including one which could result in a whole new constitution.

The Democratic and Republican parties are joined on the ballot this year by the Texas' La Raza Unida and the national Socialist Workers Party.

Democrats have candidates all places on the ballot while the Republicans have only six places. La Raza has candidates only for the major state offices while the Socialist Workers Party has candidates for both national and state posts.

While most attention has been directed to the campaigns of Democratic party hopefuls George McGovern and R. Sargent Shriver and the Republican veterans Richard Nixon and Spiro T. Agnew the

Constitutional Amendments To Appear On Ballot Tuesday

The Regular Session of the 62nd Legislature submitted fourteen joint resolutions to amend the Constitution that will be voted on at the General Election on November 7, 1972. A simple majority of those voting in that election on these particular issues will make them a part of the Texas Constitution. Some of the proposals are local in nature and rather minor in consequence; others, however, are rather broad in scope and would constitute major changes in our fundamental law.

AMENDMENT NO. 1
Amending Article III, Section 24, of the Texas Constitution to provide annual salaries of \$8400 for members of the Senate and House of Representatives.

This proposal increases the annual salary of members of the Texas Legislature from \$4900 to \$8400. No changes are

made in the mileage or per diem allowances. Up until 1960 members of the Legislature were compensated on the basis of a per diem for the number of days they were actually in session. The most recent amendment to the Constitution was adopted in 1960 writing in a \$4800 annual salary, with a limitation of \$12.00 per diem for expenses while actually in session.

Proponents of the amendment argue that \$4800 is insufficient to compensate a legislator for the time he must spend in the protracted regular and numerous called sessions that our complex state government now calls for.

Opponents claim that it is a part time job, that it should not be compensated on an annual basis and our resources have sufficient drain on them now

without adding an additional cost in legislative salaries.

AMENDMENT NO. 2
Amending Article IX, Section 6 of the Texas Constitution to abolish Lamar County Hospital District.

This proposal is local in nature and abolishes the Lamar County Hospital District and authorizes the Commissioner's Court of that county to provide for the transfer or disposition of assets of the district. The Lamar County Hospital District was created in 1960 under authority of constitutional amendment and operated for a time; however, several years ago it ceased operation and privately owned facilities are now being used for hospital care in Lamar County.

AMENDMENT NO. 3
Amending Article XVI, Cont. on page 2

Amendments--

Cont. from page 1

Section 61 of the Texas Constitution to require the Commissioner's Courts in all counties of the state to compensate all justices of the peace on a salary basis beginning January 1, 1973.

This proposal would require all justices of the peace to be compensated on an annual salary basis rather than on a fee basis. The Constitution now requires all justices of the peace in counties of 20,000 population or more to be compensated on a salary basis.

Proponents of the amendment argue that this would discourage the "speed trap" image now associated with some justice courts and would probably discourage routine appeals to county courts from justice courts compensated on a fee basis.

Opponents of the amendment argue that doing away with a fee basis will discourage diligent justices of the peace and will make them dependent upon the commissioner's court which provides their salary.

AMENDMENT NO. 4

Granting authority to the Legislature to establish a constitutional revision commission which would report its recommendations no later than November 1, 1973 and providing that members of the 63rd Legislature would then be convened in January, 1974, in a constitutional convention to serve 60 days for the purpose of drafting a new constitution for submission to the voters of Texas.

The proposed amendment would add an authorization for the 63rd Legislature to establish a constitutional revision commission. The commission would report to the Legislature not later than November 1, 1973 and the Legislature would then be convened in January, 1974 for the purpose of drafting a new constitution or revising the current constitution for submission to the voters. The commission would be allowed to sit through May 31, 1974 and could extend its life for 60 days beyond that date. The only restriction as to subject matter would be that the existing Bill of Rights must be retained in full.

Proponents of the amendment argue that there is a real need for a more workable basic law which would require less periodic revision and since the Legislature has always been entrusted with the function of proposing constitutional changes, the Legislative body is the logical choice for responsibility in the preparation of a new or revised constitution.

Opponents of the amendment argue that constitutional reform should not be through a new document but through revision of the existing document and the convention called for has a totally new constitution as a possible alternative. Opponents further argue that revision is not a legislative job and should stem directly from the people by delegates to a constitutional convention elected by the people and responsible to them.

AMENDMENT NO. 5

Amending Article VIII, Section 2 relating to a tax exemption on certain property owned by disabled veterans to provide that exemptions which would range from \$1500 to \$3000 to be made on a graduated scale based on the percentage of veterans disability.

Proponents of the amendment say that persons disabled in military service should be compensated for their sacrifice, that the tax exemptions proposed are a token and subject to strict limitations and the loss in revenue would be negligible, that the amendment is permissive and the necessary details of administration could be spelled out by the Legislature which could also revoke the exemptions should the need arise.

Opponents of the amendment say that compensation of disabled veterans is a federal matter and that there are already adequate and generous programs available to disabled veterans and school districts and local governments should not be deprived of any tax sources.

AMENDMENT NO. 6

Amending Article VIII, Section 1b of the Texas Constitution to provide that various political subdivisions of the state may exempt not less than \$3000 of the value of resident's homestead of all persons 65 years of age or older from ad valorem taxes under certain conditions.

Presently the constitutional homestead exemption from ad valorem taxes stands at \$3000 and is applicable to both state and county taxes. This proposal would extend the homestead exemption by allowing a county, city, town, school district or other political subdivision of the state to make a like exemption.

Proponents of the amendment argue that the ad valorem tax is the basic form of taxation supporting local governmental units and the present homestead exemption gives no relief, as neither the state nor county taxes compare to any degree with the burden of local taxation.

Opponents of the amendment say that this would be a substantial reduction in revenue to local government and school districts and again violates the principal of equality and uniformity in taxation while special programs that exist today to aid our elderly citizens diminish the need for the protection of the homestead.

AMENDMENT NO. 7

Amending Article I of the Texas Constitution by adding a new Section 3a to provide that equality under the law shall not be denied or abridged because of a person's sex, race, color, creed or national origin.

The present constitution does not specifically prohibit discrimination but the equal protection clause of the fourteenth amendment to the United States Constitution prohibits a state from legislating different treatment to persons placed by a statute into different classes on the basis of a criteria wholly unrelated to the objective of the statute.

Proponents say that there is still substantial discrimination and that only a constitutional change prohibiting such discrimination can effectively change the status quo.

Opponents argue that the proposed amendment is not necessary because all discriminatory legislation is now prohibited by the federal constitution.

AMENDMENT NO. 8

Amending Article IV, Sections 4, 22, and 23 of the Texas Constitution to provide four-year terms for the offices of Governor, Lt. Governor, Attorney General, Comptroller of

Public Accounts, Treasurer, Commissioner of the General Land Office, Secretary of State and certain statutory state offices.

There have been four-year terms for certain constitutional offices of the state of Texas in the past; however the constitution of 1876 fixed the terms at two years for all constitutional offices.

Proponents of the four-year term argue that officials would have an opportunity to grasp the operation of the job and be more efficient in it before they were forced to go back into campaigns for re-election. Thirty-nine states have four-year terms for governor including several of our immediate sister states. The need for long range plans and programs are effectively thwarted by a system of two-year terms.

Opponents of the amendment point out that long terms of office lead to corruption. That too much power is inherent in long terms and they make the official less responsive to the rise and fall of public opinion.

AMENDMENT NO. 9

Amending Article XVI, Sections 33 and 40, of the Texas Constitution to exempt directors of soil and water conservation districts from prohibitions against dual office holding and dual compensation.

Presently any public official is prohibited by the state constitution from holding more than one office in state, local or federal government.

Proponents of the amendment argue that in the less populous areas of the state there is a shortage of qualified people to hold responsible positions and the amendment would increase the available manpower by

permitting public officials to fill them.

Opponents of the amendment insist that the present prohibitions were intended to prevent the concentration of public jobs among a relative few and that multiple office holding would too greatly divide the time and attention of officials to permit the performance of either function efficiently and capably.

AMENDMENT NO. 10

Amending Article XVII, Section 1 of the Texas Constitution to revise provisions on the time of proposing amendments to the state constitution and the time and method of publishing notice of the proposed amendment.

The proposals involve two basic changes. Presently, the constitution can only be amended by a resolution submitted in the regular biennial session. The amendment would permit constitutional amendments to be considered by any session of the legislature. The second phase of the amendment deals with the manner of publication of proposed amendments. Presently, the full text must be published four times in one paper in each county. The new requirement would require only a summary statement in explanation of the amendment to be published twice in every newspaper that qualified for publication of official notices.

Proponents argue that the amendment would permit greater flexibility in the submission of the amendments and provide better information to the general electorate as to what they were voting on.

Opponents of the amendment insist that basic changes should be considered carefully and a thirty-day special session would not provide enough time for proper consideration of proposed amendments. They argue that to permit an interpretation made by an official to be voted on instead of the actual amendment is a dangerous practice and also that the new method of publication would probably cost more.

AMENDMENT NO. 11

Amending Article IV, Section 17, of the Texas Constitution on adding a new Section 24a to Article III to provide a salary of \$22,500 for the Lt. Governor and the Speaker of the House of Representatives.

Historically, the Lt. Governor who presides over the Senate and is a state-wide elective officer and the Speaker of the House who presides over the House of Representatives and is elected by the membership of the House of Representatives have been compensated on the same basis as other members of the House of Representatives and Senate. This means that each presently draws an annual salary of \$4800 per year.

Proponents of the amendment argue that the leadership and administrative ability demanded of presiding officers puts these offices in the same relative importance as other full-time state officials and they should be so compensated. Over the past few years the jobs of both presiding officers of the respective houses have become full time jobs.

Opponents of the amendment argue that the Speaker of the House should not receive the same amount of salary as the Lt. Governor as he is not elected on a state-wide basis but is selected by the members of the House of Representatives.

THE HAMLIN HERALD, HAMLIN, TEXAS 79520

AMENDMENT NO. 12

Amending Article XVI, Sections 33 and 40 of the Texas Constitution to allow state employees and certain other persons to serve on the governing bodies of school districts without forfeiting their state salary, and otherwise to revise generally the restrictions on dual office holding and dual compensation.

The proposal broadens the exemption from the prohibition of dual office holding and compensation for non-elected employees.

Proponents of the amendment argue that in some cities, school districts or other governmental subdivisions state employees are a large percentage of the population and the amendment would allow these persons to serve on city councils and school boards in such communities without sacrificing their state salaries.

Opponents insist that there is sufficient number of qualified citizens in any community to fill local offices and that service in two capacities would result in heavy work loads prohibiting the public employee from giving his full abilities in his state job.

AMENDMENT NO. 13

Increasing the maximum interest rate which may be borne by certain bonds issued under constitutional authority by adding a new Section 65 to Article III.

A number of provisions of the Texas Constitution place a maximum limit on the amount of interest which may be prescribed by certain public agencies for bonds they issue. Most of these limits are set at less than 5 percent and the present prevailing rate of interest which can be sold is higher than maximum interest rates set by the constitution. The proposal would permit such bonds to be sold with maximum interest rates not to exceed a weighted annual interest rate of 6 percent.

Proponents of the amendment argue that its adoption would permit certain state and local agencies now under restrictions to compete for sale of their bonds in the open market on an even footing with other entities.

Opponents argue that increasing the constitutional limit would provide higher interest rates and therefore require more revenues to pay off the bonded indebtedness, and would encourage various agencies to rely even more upon the creation of bonded indebtedness as a means of financing future needs.

AMENDMENT NO. 14

Amending Article VII of the Texas Constitution by adding a new Section 6b to permit the commissioner's court of a county to reduce the county permanent school fund and provide for per scholastic distribution and use of the money obtained from this reduction.

Proponents argue that many school districts need new facilities and lack funds to finance them. Some have already issued bonds to the statutory limits and others have reluctant electorates who repeatedly refuse the issuance of new bonds.

Opponents argue that a reduction in the funds would reduce the income to the available school fund and therefore create a need for a larger state expenditure in the support of education.

Well, Halloween is over for another year, I hope every one enjoyed their tricks and treats. Mr. and Mrs. Kenneth Riddle spent the weekend in Abilene visiting with Mr. and Mrs. Sonny Holzmann. Miss Stephanie Reed celebrated her fifth birthday with a party Saturday afternoon in McCaulley. The sixteen children and mothers attending were served ice cream, cake and punch. Individual favors were also passed out. Stephanie is the daughter of Mr. and Mrs. Marion Reed. I had a call a few days ago asking if I would see if there was anyone in Hamlin who refinishes or antiques furniture. If you do this type work or know of someone, please call and I will publish it in next week's column. Mr. and Mrs. Rollins Roth and Stephen spent last weekend in Bowie with Rollins' parents, Mr. and Mrs. William Michael Roth. Mr. and Mrs. Robert Fowler recently attended the funeral of Paul Fowler's father-in-law, Sam Howlett in Shawnee, Okla. A party given by Jamie Crowley and Gregg Bessire was held Saturday night at the Jaycee Building. The party was a Halloween Costume party and prizes were awarded to Nickey Bonds, Wayne Wheat, and Gay Letta Flowers for best costume. The prizes were jack-o-lanterns and refreshments were cup cakes, Halloween candy and cold drinks. A. L. Rucker of Troup spent Monday night in the home of Mr. and Mrs. Jim Jarvis and Stace on his way to Odessa to visit his daughter and our sister-in-law and husband, Mr. and Mrs. Andy Jarvis, and then on for some deer hunting. Visitors in the home of Mrs. Ruth Hillier were her grandson, Tommy Hillier and his stepbrother, Bill Rose both of Modesto, Calif. Mr. and Mrs. Leldon Clifton, Mr. and Mrs. Marvin Carlton, Elaine, and Debi Cary, recently attended the first series of the Abilene Philharmonic Orchestra. They really enjoyed the performance and noted that four ex-Piper band members were in the orchestra. They were C. A. Jenkins, Mary Dell Jenkins, Robert Bailey and Jim Clifton. I've come to realize that in West Texas it either is too dry or too wet, I wonder how many people are saying right now. Rain rain go away come again some other day? Two recipes for 'eggless' cookies have been received.

They are being printed since there may be others who may have an allergy problem. The sand tarts make a good party cookie and the tea cakes are very versatile, the donor mentioned. SAND TARTS 1 stick butter 1/2 c. Crisco (scant) 1/2 t. salt (scant) 4 heaping T. powdered sugar 1 t. vanilla 2 c. unsifted flour 1 c. nuts cut very fine dash cinnamon. Mix all ingredients together by creaming butter and Crisco and adding sugar, etc. Take approximately 1 1/2 to 2 T. of the mixture and form into crescent shape. Dough will crumble slightly and will need to be pressed into shape. Bake 10 to 12 minutes in 350 degree oven.

OLD FASHIONED
TEA CAKES 2 c. sugar 1 c. butter 1 c. sour cream 1 t. soda 1 t. baking powder 1 t. vanilla 4 c. or more flour to make stiff dough. Cream butter, add sugar gradually and blend well. Add sour cream alternately with dry ingredients and mix well. Continue to add flour until dough is easy to handle. Roll out on floured board to 1/4 inch thickness. Cut with round cutter or any cookie cutter. May be decorated with chocolate drops, M & M's, or candy sprinkles before baking or iced and decorated after baking. Makes good Christmas cookies because can be baked in Christmas tree, wreath or Santa Claus designs. For crisp cookies roll thin. For soft cookie roll dough thick and do not over-bake. Bake about 8 minutes at 400 degrees.

Another recipe that is popular this time of year is an easy hot chocolate mix. By just adding boiling water to the mix a cup of rich hot chocolate is ready in minutes. This is also handy for putting in thermos and taking to football games. HOT CHOCOLATE MIX 1 8 qt. box Carnation dry milk 1 1 lb. can Nestle's Quik 1 6 oz. jar Coffee Mate 3/4 to 1 c. powdered sugar. Mix well. Store in tightly covered container. Place 3 or more heaping T. of mix (according to taste) in cup. Fill cup with boiling water. Stir and serve. May be topped with marshmallows, whipped cream or a spoon of ice cream, if desired.

Make a "hair do" apron from a large bath towel that has become too thin for good drying. Fold in half crosswise, cut out a circle to fit the neck and cut an opening in the front. Sew a large pocket at the bottom of the apron. It can be made from a washcloth, make a smaller pocket on the other side. In the large pocket keep rollers and clips, in the small pocket keep your comb. This is easy to work with when putting your hair up, keeps your dress clean and is easy to launder. Did you know that men's aerosol shaving cream will remove grease from your hands and leaves a nice clean smell too.

Here's a good idea for housewives who use disposals, once a week cut up a lemon or lime or use the rind of a grapefruit and run it through the disposal. A sweet and fresh smell is the result. Did you ever try taping a pattern to your material instead of pinning it? It really saves a lot of time since you can cut right through the tape and don't have to be bothered with removing the pins.

OVEN CLEANING TIP Add one more step to the instructions on cleaning an oven with spray type cleaner. After following directions completely, place pan of boiling water in oven and close door. Wait a few minutes to let the moisture collect on the walls of the oven. Remove water and wipe oven with paper towels or dry cloth. It is surprising how much of the cleaner was missed. Turn oven on briefly to dissipate all moisture.

Tough Defense, Jones Too Much for Haskell

The fleet-footed running of Sophomore Halfback Johnny Jones, combined with a hard-hitting Pied Piper defense was too much for the Haskell Indians Friday night as the Pipers "up-set" their second District 6-AA opponent in two weeks, 20-12. This was the first Hamlin victory over a Haskell team since a 13-6 win in 1966.

Johnny showed his speed to the Haskell fans in Indian stadium Friday night as he carried the ball 23 times for 200 yards and three touchdowns. He scored on runs of 67, 12 and 10 yards.

The Pipers defense that seemed to find itself against Winters last week, proved that it was "for real" as it made three goal line stands, held the talented Jackie Young to 78 yards in 21 carries and gave up only 9 rushing yards in the entire second half.

The Pipers put their defense to the test in the opening minutes of the game as they fumbled the opening kickoff to the Indians on the Hamlin 20. In four plays the Indians owned a first down on the Hamlin 9, but on fourth down and needing 3, Young was hit hard and fumbled across the goal line and out of the end zone to give the Pipers the ball on their own 20.

On a mixup in the backfield, Milton Jones scrambled for 12 yards and a first down on Hamlin's first play from scrimmage. On the next play, Johnny hit into the line for a one-yard gain and then on the next play he turned the corner on the Haskell defense and simply outraced everyone to the goal line. The play, down the right side line, was good for 67 yards. Steve McKissack kicked the point after.

But it did not take long for the Indians to show why they were picked the district favorites as they returned the kickoff back to their own 46 and then took just three plays to score. Quarterback Cobb picked up the first seven yards and then Fullback Alexander ripped off 27 more. Alexander was the leading ball carrier for Haskell for the night with 112 yards in 16 carries. With a first down on the Hamlin 20, Young raced in to score. The kick for the point after missed and the Pipers still owned a slim one-point lead.

This lead was short-lived however, as the Pipers failed to gain a first down at the Indian 37 and punted. The ball rolled dead at the Indian 10 yard line and a half-the-distance penalty put the Indians back on their 5.

It took the Indians 12 plays to go the 95 yards to pay dirt on the running of Young and Alexander and the passing of Cobb. Alexander scored from the nine. Cobb tried to pass for the two-pointer but it was deflected by a Hamlin defender.

With a minute and 15 seconds of the first period still on the clock, the Pipers took the kickoff at their 20 and opened a drive that used just four plays to cover the 80 yards. Johnny carried for 12 yards to the 32 and then broke up the middle for 53 yards to the Indian 15. Fullback Albert McAfee carried to the 12 and then Johnny raced around his right end, stiff-armed one would be tackler, and raced for the flag and the score. McKissack added another point after and the Pipers were back in front again, 14-12.

The Pipers launched another scoring drive in the second period that started on their own

24, but lost the ball on a fumble at the Haskell 29.

The Indians seemed to be threatening to score again late in the second period as they completed a pass deep in Piper territory only to have the receiver fumble after being hit by Joe Mayes.

The two teams exchanged punts in the opening part of the third period and then Haskell moved the ball from their own 45 to the Hamlin 35 before being stopped on fourth down.

Taking over on their own 35, Milton had a pass go incomplete, Johnny picked up three yards and then Milton fought his way for 10 yards and a first down. He was trying to pass when he was forced to run. Johnny carried for five and then McAfee powered his way for gains of four and eight yards and a first down on the Haskell 35. Johnny picked up another first down on two seven yard carries and then McAfee added another first down on carries of five and six yards. From the

Haskell 10, Johnny just headed for the flag and scored standing up. McKissack's kick was no good and the Pipers were now out in front 20-12.

After some more punt exchanges, the Indians opened up another scoring threat as they moved from their own 37 to the Piper 11. The last 27 yards of this drive came on a pass interference penalty against the Pipers. Alexander fumbled the handoff on the next play and the Pipers took over at the nine.

But the Pipers did not stay on offense very long as they fumbled back to Haskell on the first play. Young tried the Piper line twice for no gain and then Quarterback Kenney Ivey, who had replaced the injured Cobb at the signal calling spot, had two passes go incomplete.

The Pipers moved the ball out to the 17 before punting with Haskell taking over again on the Hamlin 45. But four plays later the Pipers had the ball again back on the 47. The Pipers ran one play to run out the clock and mark up their second district win.

JV's Frosh Combine to Defeat Anson

The Hamlin Junior Varsity and Freshman teams combined last Thursday to defeat the Anson JV's 20-0.

Two two teams alternated quarters to come up with their win over Anson.

William Brown scored the first touchdown for Hamlin on a 27 yard run in the second period. The point after try failed.

With 10 seconds left in the first half, the Hamlin defense tackled the Anson quarterback in the end zone for a safety to give Hamlin an 8-0 lead at half time.

Running from the Wishbone, Robert Phariss took the option pitch from Quarterback Raymond Jordan and raced 25 yards to score. The point after play was no good. Later in the game Jordan kept on the option and scored from the 10. Again the point after play was stopped.

Task Force Chairman Stanton Brown, manager of the League Ranch near Benjamin, listed the following speakers and their subjects:

—Dr. John Beverly, animal reproduction specialist with the Texas Agricultural Extension Service of Texas A&M University, "Some Factors Affecting Reproductive Ability of Bulls."

—Dr. W. W. Collins, American Cyanamid Company veterinarian, "Anaplasmosis, a Review of the Disease and Methods of Control."

—Dr. Dennis Herd, beef cattle specialist with the Agricultural Extension Service, "Feeding of Beef Cattle for Maximum Fertility."

—Dr. E. J. Carroll of the College of Veterinary Medicine at Colorado State University, "Control of Diseases Affecting Reproduction in Beef Cattle." Cost of registration and lunch will be \$5.

Mrs. Bernice White spent Saturday and Sunday in Lubbock with her daughter, Judy White.

The Old Glory Varsity Club met Tuesday, Oct. 24, in the home of Mrs. Charlie Letz, five members were present. Two visitors, Mrs. Allen Letz and Mrs. Ed Letz, also attended. Mrs. Garrett Spitzer will host the next meeting Tuesday, Nov. 7.

Weldon Spitzer, student at Texas Tech at Lubbock, spent the weekend here with his parents, Mr. and Mrs. Garrett Spitzer.

Word was received here last week by members of the Letz family that a brother-in-law, Cecil Weaver of Jacksonville, had passed away. Mr. Weaver's wife was the former Lena Letz. They had been living in the East Texas area for many years, but they did live in this community when they were first married, and Mrs. Weaver was reared here.

Among those from here who attended the funeral were Mr. and Mrs. Charlie Letz.

Clif Gholson was ill last week and spent several days in the Stamford Hospital. He is back at home, and we join his other friends in hoping he is feeling better.

Upset!!! That was the echo heard throughout, our district Friday night. Our Pipers did a stupendously great job, as you may have seen or definitely heard about!! As the half came to a close the Pipers led with a two point margin, 14-12. When the Green Team came back they were ready to take the Indians. The Piper defense came on strong and the offense brought forth another TD. I am sure if you were unable to attend the game you know it was to your misfortune!!! Pipers, we are ready to back you to your next victory over the Stamford Bulldogs!!!

The FFA Leadership teams are busily preparing for district leadership contest, to be held Nov. 8. The coaches for the teams are vocational agriculture teachers Milburn Wink and Gary Finley. There is a senior and a junior team which will compete in the district contest.

There was an increase in the number of people at the Booster Club Monday night. The President, Kenneth Hertel, welcomed the members, and the coaches took over the program. Coach Dechario gave the scouting report on the Stamford Bulldogs. Coach Bonds then narrated the film.

Why You Should Re-Elect President Richard Nixon Nov. 7

LET'S LOOK At AGRICULTURE And STOCK RAISING

WE HAVE one of the most abundant supplies of food in history. Our exports of livestock, fresh meats, grain sorghums and grain are going to add many dollars to the general economy.

WE'RE SELLING COMMODITIES of which we've had surpluses—and we're helping provide jobs on trucks and ships at the same time.

HERE ARE SOME OF THE REASONS

PRESIDENT NIXON'S AGRICULTURAL ACT OF 1970 gave producers more flexibility and freedom in operations.

PRESIDENT NIXON'S ADMINISTRATION has turned around the farm situation that saw farmers get an increase in income of 6 per cent between 1951 and 1969 while wage rates went up 6 per cent every year.

PRESIDENT NIXON gave agriculture one of the most effective spokesman in recent history by appointment of Earl Butz as Secretary of Agriculture.

Neinda Philosopher Comes Up With Plan to Cut High Costs of Campaigning

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One offers his views on high campaigning costs this week.

Dear editor:
I was sifting through a batch of campaign literature that turned up in my mail box, each piece of which claimed the country is headed for ruin if its candidate is not elected, makes no difference what he's running for, and among all this I found a

non-partisan leaflet which reported that there are some 500,000 elective offices to be filled on Nov. 7.

After figuring up what it cost those 500,000 people to run, using detailed cost analyses on radio and television time, newspaper ads, barnstorming, air travel, telephones, printing, postage, bugging devices and other routine campaign outlays and guessing at what was shelled out in unaccounted-for cash, the leaflet estimated it cost 400 million dollars to fill those 500,000 offices.

Now a lot of people are saying the cost is too high, but they're forgetting that of all the people running, only half will get elected. Some argue that's money well-spent.

Nonetheless, the cost is high, particularly when you remember that 400 million dollars is just the cost of getting them in, the real expense comes in keeping them there afterwards, and I have been giving the matter some thought.

The thing to do is to set aside one night a week during say the last two months of the campaign when all television and radio stations, on penalty of forfeiting their licenses, are required to turn all their air time over to the candidates free of charge, allotting time on a democratically worked-out schedule, 5 minutes to Justices of the Peace, 8 minutes to

County Judges, 10 minutes to Congressmen, 25 minutes to Senators, an hour to Presidential candidates, or some such arrangement. Do this every Tuesday night, say from 6 o'clock to midnight. Show nothing else on television, cancel all the programs that one night a week and turn the candidates loose.

I don't know whether this would result in a more informed electorate or not, but it sure would cause Tuesday night business to pick up at the movie houses.

Come to think of it, you could put a special Tuesday night tax on movies, use the money to reimburse the radio and television stations for the free time, and everything comes out even.

Yours faithfully,
J.A.

Bill Johnson Gets Elected

Bill Johnson, senior business major at McMurry College, has been elected Keeper of the Lodge of IHR Men's social club at McMurry.

IHR is an organization steeped in the tradition of McMurry College and dedicated to brotherhood, competition and honor.

He is the son of Mr. and Mrs. W. T. Johnson and a 1969 graduate of Hamlin High School.

AUSTIN, — Rising welfare costs will demand another \$60.9 million increase in the state budget during the next two years, the State Board of Public Welfare concluded last week.

The Board also approved a budget request asking an additional \$71.1 million in federal matching funds for the 1974-75 biennium.

State Welfare Commissioner Raymond Vowell blamed the increase on congressional regulations and a two percent cut in the federal government's share of welfare program costs for Texas.

Welfare Board member Louis Sarazan of Corpus Christi also pointed to increases in medical care for welfare beneficiaries.

Even with the increase recommended, benefits would be cut at least temporarily next fall. State funds for welfare totalled \$212.5 million in 1972 and \$267.8 million in 1973.

The Texas constitution limits money actually paid to welfare recipients (not including medical assistance, operating costs, special services, food stamps, counseling, child care and job training) to \$80 million a year.

Voters last year rejected a proposal to remove state aid to the aged, blind and disabled from the ceiling.

If President Nixon signs the revised welfare reform bill,

Richard Cooley Elected Farm Bureau Prexy

The annual meeting of the Jones County Farm Bureau was held Saturday night, Oct. 14 in the Anson High School cafeteria. About 150 people were in attendance.

Richard Cooley of Hawley, was elected president for the coming year. The following directors were elected: W. N. West, Anson, Prect. 2; Darrell Richards, Lueders, Prect. 2; L. Mac Reid, Hamlin, Prect. 1; Herbert Johnson, Hawley, Prect. 3; and Ab Hunter Jr., Noodle, Prect. 4.

Other directors are Herman Reeves, Anson; Joe P. Howle, Hawley; J. C. Moss, Anson; B. R. Vancil, Noodle; Troy Vinson, Hawley; and Ira Treadwell, Stamford.

Reports were given by Joe Albrow, agency manager and Jack Pitcock, special agent.

Delegates were elected to the State Convention which will be November 13-15 at Houston.

Herman Reeves presided over the discussion of the proposed resolutions and all resolutions were passed without change.

only aid to families with dependent children would be left under the state ceiling by Jan. 1, 1974. The federal government would assume the cost of aid to the aged, blind and disabled, although the states would administer programs until July 1, 1975.

The federal act, if signed, would also phase back into the medicare program 19,000 old folks who lost their eligibility when social security benefits were raised October 1.

UNITARY PRIMARY URGED — Secretary of State Bob Bullock recommended unitary primary elections to replace the old system of separate primaries for Democrats and Republicans.

At the same time, the state chief election officer advised a Senate election law study committee that unless the legislature enacts new legislation next year there will be no laws on the books for financing 1974 primaries.

Bullock estimated the state could save at least \$800,000 under the \$2.8 million spent on dual primaries this year if it uses the same polling places and officials for both major parties.

The Secretary recommended state and local officials, rather than county political party chairmen, be designated to hold primaries. He also urged re-evaluating the whole Texas Election Code's provisions on political advertising and campaign expense-financing reporting. He said the election code should be recodified.

RATE STUDY ASKED — The House sponsor of competitive home and auto insurance rates in the recent special session announced he will ask the House speaker to direct a committee to make a rate study.

Rep. Don Cavness of Austin said he hopes his bill, which died in conference committee last month, will be revived by the 63rd Legislature next year.

Cavness said he does not think lawmakers received an accurate analysis of competitive rates from the State Board of Insurance. He said he hopes to obtain more nearly accurate facts on auto insurance costs. He said he also wants some meaningful comparisons on premiums for homeowners' rates, which "on routine examination appear extremely high."

RURAL AID HEARINGS SET — Texas Industrial Commission will hold public hearings in four cities during

November to determine which areas are eligible for industrial development aid under a new law.

Hearings will be held in Austin November 9, Big Spring November 14, Kingsville November 16 and Henderson November 21.

The program provided under the Texas Rural Development Act will help 230 non-profit industrial foundations get up to 40 percent of cost of financing a new or expanding industry in rural areas.

REVENUE SHARING PLANNED — Gov. Preston Smith formed a council to plan for orderly administration of the new federal revenue sharing act.

The law provides an estimated \$244.5 million for Texas state and local governments during calendar year 1972. During its five-year life, Texas governments are expected to get \$1.3 billion. Local governments will receive \$163 million and state government \$81.5 million (estimated) in calendar 1972, \$185 million and \$92.4 million in calendar 1973.

SHORT SNORTS State Sen. Charles Wilson of Lufkin will serve as acting governor December 2 in ceremonies at the Alabama-Coushatta Indian Reservation near Livingston in his district.

Governor Smith traveled to six cities — Palestine, Fort Worth, Lubbock, Kingsville, Houston and San Antonio — to sign acts of the special legislative session important to those communities.

Col. Wilson E. Speir, director of the Texas Department of Public Safety, was named general chairman of the division of state and provincial police, International Association of Chiefs of Police.

Services Set

Holiday Lodge services at 2:30 p.m. Sunday will be under the direction of the Hamlin Church of Christ.

A group of church members will attend the service and join in congregational singing. Gene Johnston, minister, will give the message.

BRIDGE WINNERS

Tuesday, Oct. 31, Wink helped judge the Lone Wolf District contests in Snyder. Monday, Nov. 6, Finley will help judge the Abilene District contests at Cooper High School, Abilene.
